C

The eTao : That Can Be Told

A quixotic mad hatter Story of The Matrix9! Theory and the
Discovery of The Cyber TAO Code eUniverse algorithms.

The Code was cracked and the golden key-code algorithm found
on one truly wonderful day that began the second part of my
amazing cosmic wonderland adventure.

It was the coming together my research in the early 70's a
combining the permutation and combination maths of -

tertiary Physics and Chemistry with its valency bonds of change,
The I Ching Maths, The Great Pyramid of Giza Geometry,

Sumerian Calendar Astronomy & Astrology, later the Teotihuacan Pyramid and Quantum Physics.

Coupled with being inspired in the early Seventies by the film Man of La Mancha of Dale Wasserman - stage play 1966 and 1959 his non-musical play I, Don Quixote - that initiated from Kerouac the idealistic iconic Quixotic Spirit of the 50's and 60's!

all living creatures are, Don Quixote - Jack Kerouac 1957

Quixotic Idealism at that time an Impossible Dream

Wasserman also wrote the stage play of Ken Kesey's One Flew Over the Cuckoo's Nest

THEN Beat-Zen and Watts pointed 'Further.' Ken Kesey's Magic 'Merry LSD Pranksters' Bus with Kerouac's driver picked us all up. Timothy Leary added to the experimentation but added Guru tension to the times

NOW - with this Cyber Tao Code Information it opens us all up exponentially to dream, to reach, Quixotically 'Further' into the eWorld Age Potentials Inner & Outer

Matter - this phase of the 'impossible' Dream has been realised as this Cyber eScience shows for-filling Einstein's Dream of the Universe's Unified Field what he called the 'Old One.' Again Einstein shown to be in tune with the uni or one, eUniverse. Mind can now can resonate in kind.

Later reading Jung and Pauli's 137 Atomic 'Impossible Dream' of Synchronicity
The Algorithm unfolded - a Matrix9! Constants Theory of the eUniverse

It was as the Quantum-I Ching theorist Neils Bohr said of pervious theories

Your theory is crazy, but it's not crazy enough to be true - Neils Bohr

this theory is beautifully QUIXOTIC Enough!

“Our deepest description of physical reality, in quantum theory and in the four Core Theories of forces (gravitation, electromagnetism, strong and weak forces), bring in concepts that call to mind yin and yang. Niels Bohr, an influential founder of quantum theory, saw strong parallels between his concept of complementarity and the unified duality of yin-yang. He designed a coat of arms for himself, in which the yin-yang figures centrally - Frank Wilczek, Nobel Prize Quantum Physicist

To begin at the Beginning In New Zealand living at 'The Farm' commune in very green Auckland- 'old English for Oakland' - from 1969-1972 and 1973 at 'Grimaud' village St-Tropez in a large villa in the South of France.

Muddy Zen Karma-Drama's of 'The Dharma Bums' Streams of conscious with Music, drugstore books and especially 'the' book of the 60's The I Ching Book of Changes. Glimpsing through the Looking Glass at the binary digital I Ching-DNA Mathematics Codes - subconsciously seeking it's algorithm that was to come later - in all night fireplace gazing with Echoes of Pink Floyd Inspiring ideas from 20th Century Beat-Zen telescoping towards a future 21st Century Cyber-Zen of Yin-0 & 1-Yang Change and the cyber eScience of Soul Wholeness and eSpirituality!

When flying from London back to New Zealand at thirty thousand Feet serendipitously watching Dale Wasserman's Wonder-filled 'Man of La Mancha' elevated me a space I could only dream of - a higher state of consciousness! I read much later that this was not uncommon with people at the original theatre opening Off Broadway feeling an electric resonance in the air! described as mystical! A glimpse of my unbelievably crazy Quixotic-Quest Zen Breakthrough to come !

Beat Zen was the 60's 'War & Peace Outer & Inner Spirit of the Times' and the two literary icons of the 60's Alice and Don Quixote

Now 50 YEARS! On

Dodgson's Wonderland inspired by Cervantes with Alice's Knight on his horse is a Don Quixote character and Cervantes original concept a Wonderland of enchanted sleep in the deep Cave of Montesinos

CHAPTER XXIII: Of the wonderful Things which the unexampld Don Quixote de la Mancha declared he had seen in the deep Cave of Montesinos, the Greatness and Impossibility of which makes this Adventure pass for apocryphal.

The Cave of Montesinos....and considering what method I should take to descend to the bottom, having nothing to support my weight. And being thus thoughtful, and in confusion, on a sudden, without any endeavour of mine, a deep sleep fell upon me; and, when I least thought of it, I awaked, and found myself, I knew not by what means, in the midst of the finest, pleasantest, and most delightful meadow that nature could create, - Don Quixote M Cervantes ??

mind is the matrix of all matter

As a man who has devoted his whole life to the most clear headed science, to the study of matter, I can tell you as a result of my research about atoms this much: There is no matter as such. All matter originates and exists only by virtue of a force which brings the particle of an atom to vibration and holds this most minute solar system of the atom together. We must assume behind this force the existence of a conscious and intelligent mind. This mind is the matrix of all matter. - Max Planck

CyberTao Quixotic-Metaphysics Theory of Everything

Hacker Cyber Alice's Story of cracking the Cyber TAO Code of The Matrix9!

We couldn't build quantum computers unless the universe were quantum and computing. We can build such machines because the universe is storing and processing information in the quantum realm. When we build quantum computers, we're hijacking that underlying computation in order to make it do things we want: little and/or/not calculations. We're hacking into the universe.

*C.G. Jung's synchronicity
phenomenon is reviewed considering the
latest achievements of modern science.
The attention is focused mainly on the quantum
entanglement
and related phenomena –
quantum coherence and
quantum superposition.
It is shown that the quantum non-locality capable of solving
the Einstein-Podolsky-Rosen
paradox
represents one of the most adequate physical mechanisms
in terms of conformity
with the Jung's synchronicity hypothesis. An attempt
is made on psychophysiological substantiation of
synchronicity
within the context of
molecular biology. An original
concept is proposed, stating that biological
molecules involved in cell division during mitosis
and meiosis, particularly
DNA
may be considered material carriers of
consciousness
This assumption may be
formulated on the basis of phenomenology of Jung's
analytical psychology.*

His Avatar - Cyber Alice's awaking or mystic zen woke led to decoding the 'simple' Oederland algorithm of eScience in a Rational/Spiritual Quest for Einstein's Unified Field. Curiouser and Curiouser! Finally showing the Unity in Diversity of the eUniverse or Oederland 'Through The Looking Glass' Constants

Now this CyberTao Code's Algorithm will further Humanities survival battle strategy with a 'Evolution-Change Fractal Information Theory FIT' with the Planets exponential big data tsunami overwhelming reason! Theory of Everything for Everyone

if we do discover a complete theory, it should in time be understandable in broad principle by everyone, not just a few scientists. Then we shall all, philosophers, scientists, and just ordinary people, be able to take part in the discussion of the question of why it is that we and the universe exist. - Stephen Hawking
